## THREE-TRACK TRACER

Tracer trójobwodowy daje możliwość oddzielnego sterowania poszczególnymi spotami w szynoprzewodzie. W efekcie można włączyć lub wyłączyć wszystkie lampy bądź też uruchomić konkretne z nich w zależności od preferencji.

*The three-circuit tracer gives you the ability to separately control individual spots on a track. As a result, you can turn all the lights on or off, or run specific of them depending on your preference.*
